- Our **Pre-Teens Programme** and **Teens Programme** aimed at learners 8-18, offers two streams. One stream caters for those with vocational interests and one is designed for those wishing to continue on a primarily recreational basis.
- The **Vocational Stream** continues to develop dance skills and technique in all genres through the Imperial Society of Teachers of Dancing, London, including all grades through to advanced levels. This programme is a focused course that requires a greater level of commitment as it includes additional weekday classes as well as Saturdays.
The Vocational programme culminates in accreditation through the Imperial Society of Teachers of Dancing, London.

Criteria for the Vocational Stream:

Throughout the study of the syllabus, students are following a vocational path, requiring a high level of commitment and with an increasing emphasis on safe dance practice. Students at this level should show virtuosity in performance, a high standard of technique and a sound knowledge and understanding of the genre, including an understanding of reference and context.

Students should display a sense of self-awareness and be self-motivated in terms of their personal development. A greater degree of personal interpretation is encouraged and the student is expected to show the potential to communicate effectively with an audience. Students need to show qualities of professionalism, commitment and focus with the ability to manage a greater workload.

The **Recreational Stream** continues to build the skills to condition the physical body for all styles of dance in a fun and expressive creative

space. This stream offers a range of learning opportunities and enables participants to enjoy physical expression as well as develop intellectual sensibilities.

The students learn about co-operation and develop an understanding of the shaping of movement into artistic forms of expression. The program is concerned with progressive mastery in the defined stages within the context of safe dance practice.

Criteria for the Recreational Stream:

There is no pre-requisite for entry into the recreational stream. Learners may change streams at any point subject to consultation.
